

## DiamondLogos Newsletter

The intention of this letter is to support the coherence of the DiamondLogos field by making available information about what is happening globally as we welcome the expansion of the DiamondLogos teachings and community worldwide.

*Faisal, " I would like to express my deep joy & appreciation to see you all blossoming in your individuation & the unfoldment of your soul evolution & your spiritual / worldly life .*

*It touches me deeply to this progress considering how little of the work is offered in EU and how much you have taken on to do it by yourselves or with friends ... considering also all the powerful rebounds that results after each retreat and empowerment .*

*There are several students and teachers that have recently taken the step to start teaching or offering sessions in different communities and incorporating it into their work. This makes me happy to have the work reach all who need it and can benefit from it.*

*I do also I have deep concerns that the work remains in the stream of integrity the way it has been received & delivered. This is for the well being of both teachers & students alike. This teaching is the grace of the Diamond guidance that I have been graced to receive and deliver. I am only an instrument, even if it is a jewelled instrument.*

*The first stage of the process of bringing the teaching out in written form has happened by the completion of the transcriptions of most of the retreats. Thank you to all those who contributed to making this happen. The next stage is editing and publication which is starting to take shape. We'll keep you informed as this new chapter unfolds. Please keep this in your blessings so this teaching can reach all who need it.*

*Thank you for sticking around even when the going got tough, as often it did.  
With love, appreciation and blessings  
Faisal."*
